

M BHAVANA

Full-Stack Developer | Python • Django • JavaScript • React • SQL

+91 6300647921 | bhavana.m.connect@gmail.com | [linkedin.com/in/bhavana-manku](https://www.linkedin.com/in/bhavana-manku) | Bengaluru, India

PROFESSIONAL SUMMARY

Computer Science (AI & Data Science) graduate with hands-on experience building full-stack web applications using Python, Django, FastAPI, JavaScript, React and SQL. Delivered authentication, dynamic forms, dashboards, REST APIs and a Razorpay payment integration during an internship, with additional experience in applied machine learning and Google Cloud Generative AI. Comfortable debugging across the stack, using Git/GitHub and collaborating with engineering teams under SDLC and Agile practices.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React, Tailwind CSS, Responsive Web Design, Vite

Backend & APIs: Django, FastAPI, REST APIs, JWT Authentication, Razorpay Payment Integration, Error Logging

Databases: PostgreSQL, SQLite3, SQLAlchemy, Relational Database Design, DBMS

AI & Data: Machine Learning (Scikit-learn), Generative AI (Google Cloud), Data Preprocessing & EDA, Statistical Analysis, Power BI, Excel

Tools & Practices: Git, GitHub, VS Code, OOP, SDLC, Agile Collaboration, Debugging & Testing

EXPERIENCE

Software Developer | Mopuri Business Solutions (Mindcreadz Pvt. Ltd.)

july 2026 – Sep 2026

Legal Compliance & Software Services | Bengaluru, India

- Designed and developed a full-stack Django web application for a legal compliance services company, with dynamic service-application forms, secure authentication and a profile management dashboard.
- Integrated the Razorpay payment gateway end-to-end with server-side order creation, signature verification and structured error logging for secure transactions.
- Migrated data persistence from client-side storage to a relational database, improving data integrity and reliability across user profiles; collaborated with the team using Git.

Trainee – Full Stack Developer (Python) | KodNest, Bangalore

Jan 2026 – Present

- Building full-stack development skills across Python, HTML5, CSS, JavaScript and Java through structured, mentor-guided assignments and mini-projects, with regular practice in OOP, debugging and problem-solving.

Generative AI Intern | SmartBridge Educational Services (SmartInternz)

Completed Mar 2026

Google Cloud Generative AI program in collaboration with APSICHE | Virtual, 6 months / 240 hours

- Completed a long-term Generative AI internship built on Google Cloud's curriculum, gaining hands-on exposure to Generative AI concepts, tools and the Google Cloud AI/ML ecosystem.

Python Intern | MotionCut

Remote

- Developed and debugged Python programs, including number-operation utilities and pattern-generation logic, using loops, conditionals and reusable, modular functions.

PROJECTS

Mopuri Business Solutions — Full-Stack Django Web Application

Python, Django, JavaScript, SQL, Razorpay

- Built dynamic service-application forms, secure user authentication and a profile management dashboard for a legal compliance services company.
- Implemented Razorpay payments with server-side order creation, signature verification and structured error logging.
- Moved data from client-side storage to a relational database (SQLite/SQL), improving integrity across user profiles.

CRM Management System — Full-Stack Web Application

Python, FastAPI, PostgreSQL, SQLAlchemy, Tailwind CSS

- Developed a CRM to manage leads, contacts, companies, deals, pipelines, tasks and activities, with dashboards, search, notifications, reminders and calendar.
- Built RESTful APIs with FastAPI, SQLAlchemy and PostgreSQL for CRUD operations and database-driven workflows.
- Implemented JWT-based authentication with protected endpoints, and structured the backend into routers, services, repositories and schemas for a maintainable layered architecture.

Emergency Health Alert System — ML/DL Clinical Decision-Support Tool

Python, Scikit-learn

- Engineered a supervised ML model to predict high-risk emergency medical conditions, with data preprocessing, EDA and evaluation using classification metrics (accuracy, precision, recall).
- Implemented a rule-based decision-support alert mechanism to flag high-risk cases.

Melty Ice Cream — Responsive Multi-Page Website

HTML5, CSS3, JavaScript

- Designed and built a fully responsive website (Home, Services, Gallery, Contact) with interactive UI components and navigation, rendering consistently across devices.

EDUCATION

Bachelor of Technology — Computer Science (AI & Data Science)

2022 – 2026

Siddharth Institute of Engineering & Technology | CGPA: 8.3

Intermediate (XII) – Sri Chaitanya Junior College

2022 | 76%

Secondary (X) – Sri Chaitanya English Medium School

2020 | GPA: 9.05

CERTIFICATIONS

Joy of Computing using Python — NPTEL | Web Development Fundamentals — IBM SkillsBuild | Google Cloud GenAI — SmartBridge
